

Step 7: Test Plan and User Acceptance Testing (UAT)

Project Overview

Project Name	BookNest
Project Description	A centralized online bookstore platform where customers browse and purchase books, sellers manage listings and orders, and administrators oversee users, sellers, books, and platform activity through a secure dashboard.
Project Version	v1.0
Testing Period	As per individual project development and testing schedule

Testing Scope

- User registration, login, and role-based access (Customer, Seller, Administrator)
- Book browsing, searching, and viewing book details
- Cart management and order placement (Customer)
- Book listing creation, editing, and stock management (Seller)
- User, seller, and book oversight through the admin dashboard (Administrator)

Testing Environment

URL / Location	Local development environment (localhost) / deployed test build
Credentials	Separate test accounts used for Customer, Seller, and Administrator roles

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Customer registration with valid details	1. Go to Sign Up 2. Enter name, email, password 3. Submit form	Account created; redirected to customer dashboard	Account created and redirected as expected	Pass
TC-002	Login with valid credentials	1. Go to Login 2. Enter registered email/password 3. Submit	Login successful; JWT token issued; dashboard loads	Login successful, dashboard loaded	Pass
TC-003	Login with invalid credentials	1. Go to Login 2. Enter incorrect password 3. Submit	Error message shown; access denied	Error message displayed as expected	Pass
TC-004	Search for a book by title	1. Go to book catalog 2. Enter book title in search bar 3. View results	Matching books are displayed	Matching books displayed correctly	Pass
TC-005	Add a book to cart and checkout	1. Open a book detail page 2. Click Add to Cart 3. Proceed to checkout 4. Confirm order	Order is placed; order confirmation shown	Order placed and confirmation shown	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-006	Seller adds a new book listing	1. Login as seller 2. Go to Add Book 3. Enter book details and stock 4. Submit	New book appears in seller's listing and customer catalog	Book listed and visible in catalog	Pass
TC-007	Seller updates stock quantity	1. Login as seller 2. Open existing listing 3. Update stock value 4. Save	Updated stock reflected immediately in the listing	Stock updated correctly	Pass
TC-008	Administrator views all registered users	1. Login as admin 2. Go to Manage Users	List of all customers and sellers is displayed	User list displayed correctly	Pass
TC-009	Administrator deactivates a user account	1. Login as admin 2. Select a user 3. Click Deactivate	User account is marked inactive and cannot log in	Account deactivated; login blocked	Pass
...	...	...	...	...	...

Bug Tracking

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Book search does not return results for partial title matches	1. Go to catalog 2. Search partial title 3. No results shown	Medium	Closed	Fixed by updating search query to support partial matches
BG-002	Cart total does not update after removing an item	1. Add 2 items to cart 2. Remove one item 3. Total remains unchanged	High	Closed	Fixed by recalculating total on every cart change
BG-003	Seller dashboard loads slowly with a large number of listings	1. Login as seller with 50+ listings 2. Open dashboard 3. Notice delay	Low	Open	Planned optimization: pagination for seller listings
